

# REPUBLICANS WIN SWEEPING VICTORY IN MAINE ELECTION

## CANDIDATE FOR GOVERNOR HAS PLURALITY EXCEEDING 13,800; ADMINISTRATION REPUDIATED

Both Senators and All Four Congressmen are Republicans.

### GUARDSMEN STRONG FOR HUGHES

Returns from the Border Show Only 170 of the 470 Militiamen Vote in Accord With Wilson's Policies; Republicans to Control Legislature.

PORTLAND, Me., Sept. 12.—The thoroughness of the Republican victory at the polls yesterday was emphasized as the returns from isolated towns and plantations struggled in today.

Revised figures place the plurality of Governor-elect Carl E. Milliken, Republican, over Governor Oakley C. Curtis, Democrat, at 13,855. Returns from the border show that the members of the Second Maine Infantry cast a total vote of 470, of which Milliken received 290.

Pluralities for the Republicans who will send a solid delegation to Congress were practically unchanged from the figures of last night, as were the pluralities of Frederick Hale and former Governor Bert M. Fernald, who were elected to the United States Senate.

The Republicans, who have held a majority in the State Senate, will control both houses by a good working majority.

The vote for governor, United States senators and congressmen follows: Governor—Milliken, Republican, 79,922; Curtis, Democrat, 66,517. United States Senators—Hale, Republican, 79,041; Fernald, Republican, 78,368; Johnson, Democrat, 68,273; Sills, Democrat, 64,822. Congressmen—Goodall, Republican, 13,722; Stevens, Democrat, 16,103; White, Republican, 19,157; McGinnis, Democrat, 18,778; Peters, Republican, 21,287; Bunker, Democrat, 14,277; Hersey, Republican, 15,968; Pierce, Democrat, 11,913.

**BIG VOTE POLLED.** PORTLAND, Sept. 12.—The largest vote in the history of Maine was cast at the state election yesterday. The total vote will approximate 180,000. These figures have not been approached since 1899, the year the Democratic and Greenback parties fused, when the total was 147,892. In the last Presidential year, and two years ago, it fell below 142,000.

The receipt today of the vote from the border and a few isolated towns increased the plurality of Carl E. Milliken, Republican, for governor over Governor Oakley C. Curtis, Democrat, from the indicated figures of 15,000 last night to 13,850. Indulgent pluralities for the other Republican candidates were confirmed by a revision of the vote. The Republican will have solid delegations in both branches of Congress and will easily control both houses of the legislature.

**HUGHES WELL PLEASED.** PLATTSBURG, N. Y., Sept. 12.—Charles C. Hughes spent today the last day of his first Presidential campaign trip in Plattsburg. He reached here shortly before 1 P. M. and visited the military training camp. Tonight he will speak in a hall here. Mr. Hughes today made this statement: "I am deeply gratified by the result in Maine. We shall go forward with renewed confidence."

**WILSON MAKES NO COMMENT.** NEW LONDON, Sept. 12.—President Wilson today remained near his sister, Mrs. Anna Howe, who is critically ill here. His plans depend largely upon the outcome of her illness. Early this morning it was said that her condition was practically unchanged.

The first news of the apparent Republican victory in Maine was received from the newspapers this morning as members of his party would not disturb him last night with word of the news because of the illness of Mrs. Howe. He would make no comment this morning.

**A VICTORY—DANKLES.** WASHINGTON, Sept. 12.—Commenting upon the Maine election today, Secretary Daniels claimed the result was a Democratic victory and that when national issues were in consideration the Progressives voted with the Democrats.

"Maine ought to have about 50,000 Republican majority. Instead we cut it down to about 15,000. The result is a Democratic victory," he said.

**Leaves Hospital.** Miss Mae King, who underwent a serious operation for appendicitis at the south side Private Hospital, left the hospital today.

### BIG PLANT BURNS.

Parkersburg Box Factory and Nearby Factories are Fire Victims.

PARKERSBURG, W. Va., Sept. 12.—Fire early today destroyed the plant of the Ideal Corrugated Box Company. The Parkersburg Upholstering Company, the Parkersburg Chair Company and the Craighead Lumber Company, adjoining the box plant, sustained heavy losses.

The blaze originated in the box plant and gained considerable headway before it was discovered. The loss is estimated at \$50,000.

### WORK IS DELAYED

Lack of Lumber Holds Up One School; Other Makes Good Progress.

Lack of lumber for the concrete forms is holding up work on the Crawford school on North Seventh street, West Side. Contractor G. O. Schenck's consignments of boards from Virginia has failed to reach its destination and nothing can be done until it arrives. All of the preliminary work has been completed, the hollow steel and concrete mixers being in place.

The Crawford school was to be completed in eight months from the time the contract was signed. No penalty for failure to finish it at that time was fixed.

From the strikes Laurence & Critchfield are making on the new high school building at Fairview avenue and Prospect street, it is predicted that they will finish this building before the Crawford school is turned over for use. The contractors are not accepting any new work and both P. R. Laurence and J. A. Critchfield, members of the firm, are on the job leading their energies to rushing the work. A lot of building machinery is on its way to the high school job now.

### FIND NO GHOST

Dutch Bottom Willy Killed Over a Hunted House; Corps Called.

Patrolmen McDonald and Turner were called to Dutch Bottom last night to apprehend a ghost which a colored man named Cook is said to have discovered in the house in which he is boarded. Early in the evening he ran screaming into the street claiming that the phantom had descended the stairs.

Four men who started an investigation are said to have been put to flight when a box was thrown at them by the ghost.

When the police arrived they found a crowd of white and colored residents congregated at a safe distance from the house. The brave patrolmen entered the house and found no ghost at all. The family declined to enter the place again so the police locked it up and returned to the city. A colored woman named Abels recently died in the house.

### BRIDEGROOM APOLOGIZES.

He Also Pays Costs in Case Growing Out of a Serenade.

Florent Gibson was given a hearing before Alderman Colborn last night on a charge of assault and battery preferred by Richard Rittenour. Gibson is the young bridegroom who chased away the boys serenading him by using a cane on them.

Not only did Gibson strike the boys, however, but he used his cane on Mr. Rittenour, father of one of the young fellows. Gibson apologized, paid the costs of the case, and the prosecution was dropped.

### Guardsmen Furloughed.

Corporal Edward Byrne and Private Arthur L. Byrne of Company E, Tenth Regiment, have been granted a 30 day furlough to return to their home in Scotland to attend the funeral of Mrs. Mary Byrne, the former's mother.

### GREEN MOTORMAN LETS CAR GET AWAY; 2 DEAD, 13 HURT; VIOLENCE IN NEW YORK STRIKE

NEW YORK, Sept. 12.—The first serious accident of the street railway strike in this city occurred early today when a trolley car of the Union Railway Company in The Bronx, operated by a "green" motorman, got beyond control on a steep grade and jumping the track at a curve, crashed into two jitney buses, killing two persons and severely injuring 13 others. Four of the injured may die.

The car crew was arrested pending investigation.

After a night of intermittent plotting, motormen on the Sixth and Ninth avenue elevated roads reported to the police that they had been fired upon by strikers from roof tops. Third avenue elevated tracks were repeatedly bombarded with bricks and stones from buildings. One passenger, a woman, was struck on the head and severely injured. Five arrests were made.

The congestion on the subway and elevated roads today was even more pronounced than yesterday, due to the fact that there was little or no service on the surface lines of Manhattan and The Bronx. Not a car wheel moved in the Westchester cities of Yonkers, Mount Vernon and New Rochelle. Union leaders claim hundreds of subway and elevated employees have joined the union within the last 24 hours. Traction officials maintain that all of their employees who signed the "master and servant" contract remain loyal.

## CHARGES OF FRAUD AGAINST AN AGENT ARE AGAIN TRIED

Joseph Casale is Accused of Misappropriating Realty Funds.

### A FOREIGNER IS CONVICTED

Is Found Guilty of Assault and Battery; Two Dunbar Men are on Trial Accused of Being Members of Gang Which Terrorized Folks of the Town.

Special to The Courier.

UNIONTOWN, Sept. 12.—The trial of Joseph Casale, accused by Camillo Pomarici on three counts of larceny by clerk, servant or employee, was called for trial today before Judge J. Q. Van Swearingen. Both defendant and prosecutor are from New York and the alleged offenses are said to have grown out of transactions of the Long Island Shore Realty Company. An agent of Pomarici, Casale is alleged to have made collections from foreigners in and around Dunbar on lots they had purchased on the easy payment plan of the Long Island Shore Realty Company.

The case has twice previously come up for trial in the Fayette county courts, and on both the previous occasions the indictments were quashed. Each time a new information was made by Pomarici against Casale. After the indictment was quashed last spring, Casale fled a suit for damages against Pomarici, alleging false arrest and malicious prosecution.

Nick Zarra was found guilty in Judge Van Swearingen's court in a sealed verdict of charges of assault and battery, aggravated assault and battery and unlawful cutting. He was found not guilty of assault and battery with intent to kill and murder. Robert Bauman of Masonville, the prosecutor in the case, accused Zarra of cutting him.

Before Judge J. C. Work, Andy Covatch was acquitted of a serious charge against morality and convicted of open lewdness. The charges were preferred by Martin B. Rillinger, of McClellandtown, father of two small children, to whom Covatch is said to have made improper proposals. The costs in the first case were placed on Covatch.

The trial of William Hardy and George Porter, young men of Dunbar, on trial before Judge C. H. Reppert on charges of assault and battery with intent to rob, and robbery, was concluded today and the case went to the jury before noon. Anzi Hardy and Robert Gray, who pleaded guilty to highway robbery charges, testified that William Hardy and Porter were members of the gang which terrorized Dunbar, holding up many persons. The two were acquitted.

James Greene and Lee Roy, negroes, were tried before Judge Work on charges of assault and battery. They are alleged to have attacked Frank Jeno, of Colonial No. 4, in Uniontown on August 12, and robbed him of \$3. When arrested Lee Roy was carrying a revolver, it is said.

### C. E. BOARD MEETS.

Routine Matters Discussed at Session in Uniontown.

At a meeting of the advisory board of the Fayette County Christian Endeavor Union, held Sunday in Uniontown, it was reported by the vice president that the First Methodist Protestant Church of Connellsville and the Second Presbyterian Church of Uniontown, had contributed \$2 and \$1, respectively, for state work.

It was decided to arrange for a meeting of the executive committee in November or December. Carroll V. Smader of Connellsville and G. W. Greenwood of Dunbar are members of the advisory board.

### Squire Stillwagon Ill.

Squire Joseph Stillwagon is critically ill at his home in Connellsville township.

## VIEWERS NAMED FOR CITY STREETS

They Will Assess Benefits and Damages From Paving Improvements Here.

Special to The Courier.

UNIONTOWN, Sept. 12.—Upon presentation of five petitions by City Solicitor E. C. Higgs of Connellsville to Judge J. Q. Van Swearingen, viewers were named to assess damages and benefits upon street improvements in Connellsville. Viewers Fred D. Munson, W. H. Blinn and J. V. E. Ellis were named. They are the same viewers who were appointed by the court in other street improvement cases in Connellsville. Hearings were fixed as follows:

Improvement of Isabella road, between Green avenue and city line—October 6.

Washington avenue, between Arch street and Isabella road—October 5.

Willis road, between Connell Run bridge and Wayne street—October 4.

Angle street, between Willis road and Willis road—October 4.

Apple street, between Prospect street and East Main street—October 5.

All hearings are to be held at 10 o'clock each day, except the Angle street hearing which is to be held at 11 o'clock, following the Willis road hearing on the same day at 10 o'clock.

### GETS STIFF FINE

Youth Pays \$20 for Raising Disturbance in a Restaurant.

Nathan Levine was given his choice of a \$20 fine or 20 days in jail this morning in police court. Levine paid the \$20. He and two others were arrested at Bishop's restaurant last evening by Patrolman Barnes and Turner on a charge of disorderly conduct. All three left \$5 forfeits, but Levine was the only one who appeared for a hearing. Two of the restaurant employees appeared against him.

Edward McCullough, arrested by Patrolman Shumaker yesterday at Plusburg and Green streets for drunkenness and begging from house to house, was sentenced to 72 hours in the lockup by Judge Marietta this morning.

Harry Johnson, charged with cutting a boy, also drew a 72 hour sentence. Johnson, it is said, was trying to teach a boy to drink whisky. He was arrested by Patrolman Barnes on the bridge.

### FIND BODY IN RIVER.

Eminent Geologist Believed to Have Committed Suicide.

By Associated Press.

COLUMBUS, O., Sept. 12.—A fisherman early today found the body of Charles S. Prosser, aged 50, head of the geology department of the Ohio State University and a well known scientific writer, floating in the Olentangy river near the university campus.

Professor Prosser was considered one of the leading authorities on geology in this country. Friends believed that his mind became deranged and that he committed suicide.

### FOOLED AGAIN!

Government-Owned Ships Won't Operate for Three Years.

WASHINGTON, Sept. 12.—Officials concerned with the operation of the Government shipping law, passed last week by President Wilson, believe it will be at least three years before any Government owned ships can be put in operation.

The inability to buy vessels now in use and the fact that almost all of the ship building companies have orders two years ahead is responsible for the belief.

### BIRTHS EXCEED DEATHS.

Stork Pays 52 Visits in District During August.

Births during August outnumbered deaths in the Connellsville district last month, according to the statement made yesterday by Miss Clara Baker, deputy registrar of vital statistics. The report follows: Deaths—Connellsville, 24; Connellsville township, 5; Bullskin township, 2; total, 31.

Births—Connellsville, 42; Connellsville township, 3; Bullskin township, 7; total, 52.

### Killed By State Fall.

Albert Teraora, 30 years old, was killed yesterday afternoon by a fall of slate in the Alicia mines. His widow and three children survive.

### Weather Forecast

## STATE INSPECTORS AT DAWSON; VISIT THE COUNTY FAIR

Are on Hand to See That Children Under 16 Do Not Attend.

### THE FAIR OPENS AUSPICIOUSLY

Five New Buildings on the Grounds; County Agent Daugherty Judges the Pig Feeding Contest and Awards Will Be Announced Later in Week.

The Great Fayette County Fair opened at Dawson this morning with a good crowd in attendance, considering that no large attendance is ever recorded on the opening morning of a fair. The weather was ideal and it was expected that by the time the races started in the afternoon, a big throng will have wandered its way through the gates. The fair was fast and the horses out exercising throughout the morning gave promise of developing some spirited heats.

Exhibits in agricultural hall were judged this morning and County Farm Agent P. E. Daugherty took the records in the boys' and girls' pig contest, the products of which are on exhibition. The results are fine. The names of prize winners will be announced later in the week.

Officials of the fair association feel that the attendance will be lessened by the state's order prohibiting children under 16 from attending. That this will be enforced to the letter was evinced by the presence of several state health commissioners who inspected buildings as to sanitation and also saw to it that no children were allowed to enter.

The poultry exhibit is smaller this year because several cars of fowls that were to be exhibited did not arrive. Robert McLaughlin of Vandeventer is the only rabbit exhibit at the fair.

Five new buildings have been erected, a bandstand, office building and several new barns.

The Arcs Amusement Company whose attractions are to make up the midway, arrived from Steubenville, O., during the morning and its tents were immediately set up.

The tent containing the exhibit of the Pennsylvania State College agricultural department attracted much attention.

The ladies of the Dawson Fair served dinner in a commodious booth on the grounds.

A novelty this year will be served by the Salvation Army. Captain L. N. Phelps and Lieutenant Flinn, of Connellsville and Captain Spatz and Wheatley of Uniontown were in charge.

The Rose Ice Cream Company of Connellsville has a pretty booth.

The Dawson Suffragists have their usual booth, with Miss Elizabeth Mischler, a graduate nurse of Connellsville, in charge of the first aid department.

### MANY DISCHARGED.

Nearly 15,000 National Guardsmen Mustered Out.

By Associated Press.

WASHINGTON, Sept. 12.—Nearly 15,000 national guardsmen have been discharged by the War Department for various causes since the state troops were mustered into the federal service.

A statement compiled today shows that on August 31 last 9,446 members of the guard had been discharged for physical disability, 4,919 because of dependent families, 146 to return to government civil positions and a number for other reasons.

### Adams Inquest Tonight.

Coroner S. H. Baum will hold an inquest this evening at 7:30 o'clock at the funeral director J. E. Sims' office into the death of Charles Adams who was killed at Chippewa Thursday, August 31.

### Pays Big Dividend.

PITTSBURGH, Sept. 12.—The Washington Oil Company, one of the Standard Oil subsidiaries, today declared a dividend of \$4 a share, payable October 20, to stockholders of record September 20. This is the first dividend paid since December 1914.

### THREE MORE DEATHS FROM INFANT PLAGUE REPORTED FROM CONFLUENCE VICINITY

Three more deaths from infantile paralysis in the vicinity of Confluence gave evidence that the state's quarantine prohibiting children from school and public gatherings was not too stringent, at least in such localities as Somerset and Cambria counties.

The little town of Silbaugh, near Confluence, has developed a real epidemic of the plague. Deaths reported to Dr. C. P. Large, Somerset county medical inspector, on Sunday were those of Wilma Davis, 11 years of age, and Kenneth Davis, one year, children of Harry Davis, and Raymond Snyder, eight years old, son of Norman D. Snyder, all of Silbaugh.

Three other children in the Snyder family at Silbaugh are ill with the disease. Special efforts are being made to wipe out the disease there. Guards are at each house.

The Somerset county authorities have placed armed guards along all of the highways leading into Maryland. They are located at Shrawen, on the National Pike; at Wellersburg and Pocono, and two points leading into Elk Lick township. They do not interfere with ordinary travel but stop all children under 16 years who do not have health certificates from their home districts.

### Licensed to Wed.

Charles H. Dillou and Grace Manages of Connellsville; Peter Adam and Mary George of Leavenworth No. 3, were granted licenses to wed in Uniontown yesterday.

## TERRIFIC EXPLOSION WRECKS FAIRCHANCE POWDER MILL AND THREE MEN ARE BLOWN TO BITS

### CELEBRATION POSTPONED

Italian Fireworks Display Will be on September 27.

The fireworks display and band concert to be held in connection with the celebration of St. Marie del Colle Italian Catholic Church has been postponed by the committee from September 15 to September 27. The fireworks will be put off at Fayette Field.

The committee having the celebration in charge consists of Michael Mial, Scottdale; Antonio Bufano, Dunbar; Louis Molnar, Charles Shopia, Antonio DePori, Pasquale Alberucci, Frank Ricci, Salvatore Magari, Michael Pacifico and Salvatore Angianni of Connellsville.

### ALLIED DRIVE AT STANDSTILL

Efforts Are Concentrated in Holding Back the German Counter Attacks; Bulgarians Retire.

By Associated Press.

The heavy attacks made by the Anglo-French forces which halted them in important gains along the Somme front in Northern France last week have been suspended, the Allies being apparently contented for the present at least with holding the ground won against German counter attacks. No important infantry operations are chronicled today.

In Macedonia the Bulgarians are reported to have evacuated the forts of Kavala, which they occupied last month when they pushed their left flank forward to the Aegean coast. Guns of Allied warships unaimed at Kavala, rendering the forts useless to the Bulgarians, who are said to have turned them over to the Greeks.

London dispatches indicate a growing belief that Greece may shortly be found actively on the side of the Entente allies in the Balkan campaign, should she enter the war, however, she will do so it is said without the guarantee of territorial advantages offered her in the past.

### BULGARS EVACUATE KAVALA.

PARIS, Sept. 12.—The Paris Press says it learns from a semi-official source that the Bulgarians have evacuated all the forts at the Greek seaport of Kavala, which they occupied last month.

### TRAIN ROBBERY CHARGED

Two Men Go on Trial for Holding up B. & O. Train.

By Associated Press.

MARTINSBURG, Sept. 12.—Jefferson Harrison and Eugene Dies were placed on trial in the United States district court here today charged with train robbery. The men are alleged to be two of the three who held up a Baltimore & Ohio train at Central Station, W. Va., last October, and rifled the express car, made away with more than \$100,000 in unsigned banknotes.

Honry Grady Webb of Birmingham, Ala., said to be the third of the party, has not been found.

Harrison was arrested in San Antonio, Texas, and Dies in Denver, Col., and more than 50 witnesses are ready to testify, many of them from those cities.

### Pennypacker Will Wed.

PHILADELPHIA, Sept. 12.—The widow and children of former governor Samuel W. Pennypacker, who died September 2, will receive his estate estimated at \$20,000 to \$30,000. The will which was executed May 16 of this year was admitted to probate today at Norristown.

### Pays Big Dividend.

PITTSBURGH, Sept. 12.—The Washington Oil Company, one of the Standard Oil subsidiaries, today declared a dividend of \$4 a share, payable October 20, to stockholders of record September 20. This is the first dividend paid since December 1914.

### TEACHERS TO MEET

Lower Tyrone Teachers Will Discuss Plans for Term.

The teachers of the Upper Tyrone schools will meet Thursday afternoon at 2 o'clock at the Kingsview school, with Frank W. Jones, supervising principal of the Upper Tyrone, Lower Tyrone and Connellsville townships schools. J. O. Peterson, supervisor of pennsylvania, will also be present to announce plans in writing.

The Connellsville township teachers will meet Saturday afternoon at 2 o'clock in the Title & Trust Building for a similar purpose. Last Saturday the teachers of Lower Tyrone township met at the Haultown school.

### PROBING TRAGEDY.

Officials Seek Cause of the Quebec Bridge Collapse.

By Associated Press.

QUEBEC, Sept. 12.—The St. Lawrence Bridge Company and the Quebec Bridge Commission are conducting a joint investigation today into the collapse of the central span of the Quebec cantilever bridge over the St. Lawrence river while it was being hoisted into position.

The death list remains at 21.

Plant of the du Pont Company is Badly Damaged by Blasts.

### FOUR MILLS GONE, IS STORY

Plant is Located Up White Rocks Hollow, Some Distance from Fairchance; Telephonic Communication Cut Off; First Reports are Meager.

Three men lost their lives this afternoon in an explosion which wrecked the Fairchance powder mill of E. I. du Pont de Nemours & Company. Because of the remote location of the plant and the fact that the explosion tore down the telephone lines reaching it, details are meager.

In Fairchance it was reported that four mills had blown up. Other stories were to effect that the press mill and charge house were demolished in two separate explosions.

The victims of the explosion were John Robinson, 51, married, Fairchance; William Cox, 35, married, Georges township; John Brock, 23, an Italian. Twenty men were in the shift when the explosion occurred. None was injured.

The victims apparently were blown to atoms for nothing has been found of their remains but one foot. They were alone in the press mill. The press, coming and wheel mills all let go. The cause is unknown.

The plant is located up the White Rocks hollow, about two miles from Fairchance, and in an inaccessible portion of the mountains. The mill was built there following the Read explosion of 1905.

The plant is engaged in the manufacture of blasting powder, used in the mines. No explosives for munitions are manufactured.

The shock of the explosion was plainly felt in Uniontown, some six miles away. Persons said it approached in violence the blast which wrecked the Rand plant.

### BOARD U. S. SHIP

Vessel Is Held Up by Britain in the Philippine Waters.

By Associated Press.

WASHINGTON, Sept. 12.—Violation of American neutrality by a British torpedo boat which held up and examined the Philippine steamer Cebu within the territorial waters of the Philippines, was reported to the War Department today by Governor General Harrison. The dispatch immediately was transmitted to the State Department and will be made the subject of a vigorous protest to Great Britain.

The incident occurred yesterday a mile and a half off Caribon Island, according to the report of the steamer's master, Lieutenant Bails, commanding H. M. S. Destroyer No. 2, boarded the Cebu, made inquiries about her passengers and took hold of the ship's manifest and her passenger list. Apparently the officer was searching for a man named Bady who was not found.

There has been more than one complaint about the activity of the British vessels around the Philippines and while Governor General Harrison's report furnishes the basis for a specific protest it is probable that Great Britain will be called upon to restrict the operations of her patrolling squadron generally in and near the territorial waters of the islands.

### TEACHERS TO MEET

Lower Tyrone Teachers Will Discuss Plans for Term.

The teachers of the Upper Tyrone schools will meet Thursday afternoon at 2 o'clock at the Kingsview school, with Frank W. Jones, supervising principal of the Upper Tyrone, Lower Tyrone and Connellsville townships schools. J. O. Peterson, supervisor of pennsylvania, will also be present to announce plans in writing.

The Connellsville township teachers will meet Saturday afternoon at 2 o'clock in the Title & Trust Building for a similar purpose. Last Saturday the teachers of Lower Tyrone township met at the Haultown school.

# SOCIAL and PERSONAL

At the regular meeting of the T. J. Temperance class of the First Presbyterian church held last evening in the ladies' parlor of the church, plans were discussed and December 7 and 8 were the dates set for the annual bazaar to be held under the auspices of the class. Satisfactory reports were submitted by the various committees. A social hour was held, a feature rendered by a delightful musical program rendered by Misses Rea, and Ruth Gredzin and several other ladies. Refreshments were served in the dining room of the church.

## BOARD OF HEALTH AGAIN CONDEMNS GARBAGE SYSTEM

Useless to Get New Customers While Old Ones are Neglected.

## SUBMITS LIST OF SUFFERERS

Arch Street Will be Tied in Three Sections; Resident Complains About Isabella Road Contract Is Awarded for Pipe to be Used on Race Street.

Contending that it would be useless for the Board of Health to enforce the garbage ordinance so long as the garbage company is under its present management, Dr. C. W. O'Connell, president of the board, appeared before council last night and submitted a long list of regular customers of the garbage company whose collections had been neglected for periods of from 11 days to a month. These complaints came in regularly. Under the circumstances it would be foolish for the Board of Health to get new customers for the collector, he said.

"It shows their system is wrong," said Dr. O'Connell. None of the councilmen had anything to say in reply. No action was taken.

G. E. Albrecht, a member of the board, also told council of the difficulties his concern, the Wells-Mills Electric Company, to get removed from the city. He said this is put in barrels for the collectors, but that it had only been taken away twice in the last month. He also referred to one of the cases collected by Dr. O'Connell, that of a family joining the garage, where a pile of garbage lies in the yard uncollected.

A contract to supply 1,200 feet of sewer pipe for the new sanitary sewer on Race street was awarded to the Union Sewer Pipe Company at 61 cents a foot for standard quality. On this grade of pipe other firms bid as follows: Frisbee Hardware Company, 81 1/2 cents; Anderson-Loucks Hardware Company, 78 cents; Keystone Plumbing Mill Company, 70 per cent of list price; American Sewer Pipe Company, 81 1/2 cents; Conneltsville Construction Company, 78 cents.

It was decided to advertise for bids on the paving of Arch street in three sections; from Church place to Green street, Green street to Trump run, and Trump run to the city line. Ordinances authorizing the issuance of 5 per cent five-year bonds covering the cost of the Arch street job and for the paving of Race street were introduced. The bids for Arch street paving ordinances and the short term bond measures have been passed.

Bids to supply 500,000, more or less, bricks for the Arch street job were received as follows: Solomon Fire Brick Company, \$18.90 a thousand; Layton Fire Brick Company \$19.50; Pennsylvania Fire Clay Company, \$19.85. The contract was not awarded.

A communication from John T. Gophart, county engineer, approving the construction of catch basins along the Isabella road paving, but outside the city limits, was received, but no action was taken. The engineer mentioned paying them out of the "forced account," which council did not understand. Mr. Duggan expressed his willingness to build the basins if the county and township will agree to pay for them.

A final payment of \$4,328.31 to B. O'Connor on the Isabella road contract was authorized. A balance of \$800 will be retained for a year.

A communication from E. T. Brahear, real estate agent for the West Penn, asked by what authority council had made a bill in front of its property on Grape alley when Apple street was paved, thus blocking entrance to the building and causing complaint from the tenants. Engineer Faust said no grade had ever been established there. P. T. Evans complained by letter that the Isabella road paving work was not satisfactory and asked council to compel the contractor to raise a portion of the curb which is about an inch and a half too low, and also to remove earth which closes the approach to sidewalks on Washington avenue.

A petition was received from residents of the Pinnacle district asking that Edna street be opened through to Main street. This was referred to Mr. Duggan, who also promised action on the long-discussed plan to open Tenth

## WIDEN ARCH ST. NOW PROPOSED

City Engineer Suggests a Deal in Connection With Plans of the B. & O.

That the Baltimore and Ohio railroad contemplate improvements along its right of way, north of Main street, was intimated to council last night by Engineer S. M. Faust, who suggested that in the negotiations council might be able to obtain enough additional property to widen Arch street considerably. Arch street is to be paved this year by the city, consequently if the railroad has any plans that might later have a bearing on this contract, now would be the opportune time to take them up with the council.

The railroad's plans in this connection, Mr. Faust said, had been forwarded to Baltimore by Division Engineer Williams.

The city engineer's suggestion receives the rumor that the Baltimore and Ohio may acquire property on the east side of Water street south of the bridge and deed enough of it to the city to permit the widening of Arch street, in return for the vacation of Water street by the city.

Inquiry at the Baltimore and Ohio offices as to the truth of this rumor some time ago elicited the information that the company already had sufficient property at that point to permit making of any improvements in that section of town. A new freight house has been persistently rumored, it being argued that if the Pennsylvania railroad is to provide additional freight facilities here, the Baltimore and Ohio must do likewise if it wishes to retain a majority of the freight business here.

Mount Pleasant Children May Accompany Parents to Church.

The Mount Pleasant Board of Health has decided that inasmuch as there is no infantile paralysis in that section, all persons who desire to do so may bring their children to church with them next Sunday morning. Notices to this effect were sent to the various churches signed by J. W. Sholar, president and Frank R. Simpson, health officer.

There will be no Sunday school sessions, thus conforming to the order of Dr. Dixon's order, but the children will accompany their parents to church, quarantine of no quarantine.

Rev. George Mitch Moves to Mount Pleasant to Lay Plans for Inauguration of a Classical Course Next Year: Other News of Interest.

Special to The Courier.

MOUNT PLEASANT, Sept. 12.—Rev. George Mitch has moved his wife and family from Ocean City, N. J., to the Mount Pleasant Institute where he will have charge of the institute. The infantile paralysis quarantine will not prohibit the opening of the institute on Wednesday as scheduled. The classical course will be inaugurated next year. The studios have been repaired and painted, the living room and the building occupied by the teachers has been done over. The outlook for the school this year is better than it has been for some time. Miss Mina Trickey and her assistant arrived this morning and a number of students have already registered.

Harry Davis of Wilkesburg and John Arrishan of Antonio, Florida, were recent guests of Mr. and Mrs. Clark Fox.

Leslie Pilegroph left yesterday to visit Charles Wood of Greensburg. Mr. Thomas Donsie spent Sunday with Lathrop friends.

Misses Anna and Edith Mathias

were over Sunday guests of Greensburg friends.

Mrs. Scott returned to her home in Pittsburgh after a visit spent here.

The St. Joseph Dramatic Club Sunday started on what promised to be a record breaking hike, but soon tired of the long, dusty road and mountain scenery, and after lunch and some artistic posing for snap shots, started on their journey for home.

Miss Ohma Harmon gave an advanced pupils recital at her studio Saturday afternoon. Those taking part were Susie Bohmovic and Gertrude Condon. A delightful program was rendered.

Mr. and Mrs. Earl Hatch of Pittsburgh were over Sunday guests of Mr. and Mrs. X. S. Greene. Mr. Hatch has returned home but Mrs. Hatch will remain here for a few days.

Misses Mary Kiefer and Susan Overly left yesterday for Indiana Normal.

Mrs. Tonie Nelson was called to Ligonier by the serious illness of her sister, Mrs. Eli Johnston.

The Misses Zola and Louise Baughman and Mary Kiefer were Scottsdale callers Sunday.

## HOW TO PREVENT ACID STOMACH AND FOOD FERMENTATION

BY A NEW YORK PHYSICIAN.

"My experience in the treatment of stomach diseases has forced me to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all cases—and they comprise a great majority of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bicarbonate of soda, which is the most effective antacid and food corrective I have ever found. The excess acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy normal manner. Be sure to ask your druggist for bicarbonate of soda which is the form of soda especially recommended for acid stomach conditions.—Adv.

Harper will preach his last sermon before conference next Sunday. U. G. Welmer will be his delegate at the conference at Johnstown.

On Friday, while they were blasting at the L. L. Smith Glass Factory, where repairs are being made, the blast tore part of the roof off the building. None of the employees was injured.

# Why

Excessive upkeep

When the venerable American bird on the back of that shiny-piece in your pocket cries out against the high cost of flivving, you want adjust your goggles, pull down your vest and look the matter squarely in its good eye. Poor lubrication, with its direct relation to so many car-troubles, is the first line of trenches to be taken in the Battle against Excessive Upkeep.

Just as Atlantic Gasoline, the accepted standard, was the answer to your fuel problems, so Atlantic Motor Oils are the answer to your lubrication problems.

For eight out of ten cars, Atlantic Polarine is exactly right. Under certain conditions, and with certain types of motors, one of the other three principal motor oils—Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results. Your

garageman will tell you which to use.

The important thing to nail to your memory is that one of these four oils, at any rate, is the correct lubricant for your particular car.

This statement is backed by a corps of oil experts in the employ of the oldest and largest lubricant manufacturers in the whole world.

They know oils, and they know cars, too. Better take their advice and use Atlantic Motor Oils.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you drop us a postal and the book will be sent you without charge.

## POINTING THE WAY.

Maine went, hell bent, for Governor Keat in the dark days of the Civil War and pointed the way for the nation. It has been pointing the way ever since. The Maine test of public sentiment comes from the head of Yankeeism and the heart of the Common People. As a political prophecy it is above suspicion. Maine has been a Republican state ever since the Republican party was born. In 1856, with some remarkable exceptions. In 1878 and in 1889 the state went Republican because of fusion between the Democrats and Greenbackers. In 1910 the Prohibitionists joined with the Democrats and elected a Democratic Governor by 8,700 plurality, forshadowing the events of 1912, when, through further and worse Republican divisions, the Democrats carried the state by a plurality of 2,620, polling 10% of the vote.

"Diriglo," meaning "I direct," is the state motto of Maine. It is reflecting the political situation faithfully. The returns indicate that in Maine, as in the balance of the country, the Republican party is re-elected.

Republican unity means Republican Victory. Maine has merely pointed the way.

## THE PAPER SITUATION.

While systematic efforts are being made to conserve the supply of news print paper, and great economies are being practiced in its use, the situation is without promise of substantial relief from the exactions which the paper makers are in a position to make. The great dailies of New York, Philadelphia and some western cities have reduced the size of their editions, eliminated exchanges and other free copies from their lists, and have thus been able to reduce their consumption of paper 500 tons per week. This is a comparatively large quantity of paper, but it represents less than 2% of the entire weekly consumption of the United States, hence can but little figure in changing the situation either in respect to a greater supply or to a reduction of the mill price.

Paper manufacturers find their capacity unequal to consumptive demands and are declining to make new contracts extending beyond the first of the year. Under the stress now prevailing they have been able to advance prices until as high as \$120 a ton is asked for stock that formerly sold at \$40 per ton. Prompt shipments are impossible to secure and securing print paper at any time and at any price is becoming more and more a serious question for the small publisher.

What the situation will be after the first of the year no one seems to be able to forecast. It is reasonably certain, however, that prices will be maintained near the present level and there is absolutely no assurance from the paper makers that even higher prices will not be demanded. New mills are being erected, but they will not be making paper for many months to come, and they will not become a factor in price-making until production has overtaken consumption. Even then the new mills may be unwilling to take business at figures under those fixed by other mills. Consumers have not yet been convinced that the cost of production has been such as to justify the present high prices. But inasmuch as they are confronted with the problem of obtaining stock at whatever price may be demanded, publishers have no alternative but to pay it and trust to probable increases in advertising and subscription rates together with possible economies in production.

Most newspapers have effected all the economies in sight and are considering the possibility of increasing their charges for subscription or advertising, especially in view of the fact that paper manufacturers are likely to hold prices stiffly up for some years to come. The high cost of living has not yet been reflected in the price of newspapers. Penny papers continue to sell for a cent. Publishers fear to sacrifice circulation by increasing to two cents, especially if they have competitors who refuse to join them in the movement. Most newspapers are worth intrinsically more than a penny. Some of them contain the value in printing paper.

The Courier has not yet determined what its course will be, but when it comes to paying upwards of \$2,000 per car for what costs us now approximately \$1,000 every six weeks or so, we will perhaps have to make some changes in our rates and conditions.

## METERED FREIGHT RATES.

Railroad traffic officials who have long advocated the adoption of the ton-mile basis for making freight rates, find much in the decision of the Interstate Commerce Commission in the Valley Ore Rate Case to incline them to the belief that recognition has been given, or is in progress of being given, to what might be termed a metered method of determining rates. Others, who from their intimate association with industries in the operation of which freight rates form a most important question, have been disposed to the view that a more scientific and rational method could be devised than has heretofore been employed. The study and discussions of this question have tended in the direction of a more general agreement as

to the necessity and desirability of a real standard whereby fairness and equity can be assured. Speaking of the advancement made in this direction the American Metal Market says: "The Interstate Commerce Commission is making steady and safe progress in its science of freight rate making. Until a few years ago it was the general contention that ton-mile comparisons of freight rates were out of the question. The matter was too complicated to allow distance, by itself, to govern to any extent. The Commission probably had in mind for many years that the distance basis should be developed, but it has bided its time. A few years ago in fixing certain coal rates in the Central West the distance was considered, and this was hailed as a new departure on the part of the Commission."

"In the iron ore rate determination upon this week by the Commission a long step has been made. The Commission practically put the yardstick on the map. Some time ago it gave Allegheny a lower iron ore rate than the Pittsburgh district, though that was hardly cutting it off from the district, as the consumption of ore there was a new thing, and the railroads had fixed the coke rate from Connelville to Allegheny at above the rate to the Pittsburgh district. In this week's decision, however, the Pittsburgh district is hitherto recognized in the 96-cent freight rate and its successor the 88-cent rate now in force, is split into three parts. Neville Island furnace is taken off, as being nearer Lake Erie, and Monaca is taken off, as being farther away. Johnstown is given a reduction."

"Thus there is passing another of the cherished doctrines of the railroads. When the Interstate Commerce Commission was first established the railroads ridiculed the idea of a set of outsiders being able to comprehend, much less readjust, the complicated rate structure of the country. A few years ago, at a banquet of the Traffic Club of Pittsburgh, Chairman Pruett of the Commission was introduced by a railroad man, as the man in the whole country with the greatest knowledge of its rate structure. The taboo on ton-mile rate comparison has passed. It certainly should. The layman who knows nothing about railroading, may ask the question why passenger fares should be on the mile basis if freight cannot be, a question that after all would not be altogether so easy to answer."

If the Interstate Commerce Commission has definitely come to the conclusion to apply the ton-mile rule in determining freight rates, there is a very great probability that the appeal of the Connelville Coal Tariff Association for an equitable adjustment of rates on coal shipped from the region will be answered in a different manner than is hoped. If the Valley Ore Rate decision is to stand as a precedent, it would seem reasonable to expect that boundaries of the coal districts will be rearranged and different rates fixed from specific points, rather than the whole territory be embraced in one district with a uniform rate from all parts thereof as the merchant coke operators have urged be done.

The News thinks it was united effort that brought the silk mill to Connelville. Perhaps that was one cause of its coming. Another important cause, however, was the cheap electric power. The promoters of Connelville's industrial progress must never forget that we are in position to offer to manufacturers, especially small industries, the cheapest and best power in the world.

Having heard Woody's linerick about his fair the Women Suffragists calmly reiterated their policy of non-partisanship.

The Direct-to-Dunbar proposition goes over until December possibly because of some impracticability on the part of the buyers. It might have been possible to have gotten the bridge before the grand jury at this season, but not unless the plan had all been worked out carefully in advance. In placing this somewhat scolding game of county bridges it is well to bear in mind the counsel of Cardinal Woolsey: "I am not a single talk."

The Maine election is over, but the Dawson fair is just beginning.

New York is threatened with a sympathetic strike. We had been led to think that Manhattan was lacking in this particular element. It seems that it's all a mistake.

Connellsville will have a swimming class this winter, but unfortunately it will not include those who ought to be taught how to swim. With the completion of the new high school building, however, this useful art will become a part of the education of every boy and girl of Connelville.

The Jincy bus has joined the reckless class.

Objection is made to a verdict of a Fayette county jury on the ground that it is a one-man verdict. It will be pretty hard to establish this proposition.

The silk mill plans are approved and there is nothing so far as is known preventing the immediate erection of the Connelville mill.

## THE RAZOR.

The razor is a sharp implement which does more to deprive the world of its beauty than a ton of arg.

When the late Mr. Darwin was gathering evidence to bolster up his insular claim that man descended in a straight line from the orangutan, he used as types people who sifted the world's progress through a sieve of prejudice. At one time in the history of the world whiskers were worn with unblinking effrontery, and men thus adorned stood forth in the esteem of the community. It was considered a disgrace to be without a beard, and many a man wore long, porous whiskers rather than start trouble at home.

As the orangutan was also given to this practice, owing to the scarcity of good razors, Darwin set upon the fact to formulate a beautiful and comforting thought, which has rankled in the breast of man ever since.

The invention of the razor, however, which has swept away prejudice and the overlapping mountains at one swoop, knocked the props from beneath the Darwinist's edifice. No one can look at a substantial business man today, with his rugged, nobly-trimmed face, and not be reminded of the fact that he is a descendant of the orangutan.

JUDGE QUACKENBUSH, SHAKE HANDS WITH SENATOR HOWDY.

HOWDY, SENATOR, HOWDY.

GLAD TO KNOW YOU, JUDGE.

Whiskers were worn with unblinking effrontery, and men thus adorned stood forth in the esteem of the community.

selection in the least the Brazilian one which was one of Darwin's strongest exhibits. After the razor has removed a mountain of long standing from the proud crest of a hairy husband, he can return home at night and be assured of a warm welcome. And yet there are people who allow the sideburns to live in perfect beauty.

The razor is wielded with great skill by the barber, who flashes it across the face of the customer and removes whiskers and a proud note at the same price. Many a man which the customer had no intention of parting with has been cut down in the prime of life by some barber whose feelings were not hurt in the slightest.

The corn razor is a precious boon which enables people to walk in a natural tone of voice. It is never, except on Saturday night, when it passes from hand to hand with unaccounted joy. The safety razor is a money-saving device modeled after the power stump puller, and when used with a dull blade can cut a deeper furrow than a fourteen-inch cultivator.

## SCOTSDALE CIVIC CLUB HOLDS FIRST SESSION OF WINTER

Reception is Tendered Now School Superintendent and Wife.

## AMBITIOUS PROGRAM STARTED

Committee is Named to Organize a Parent-Teacher Association for the Benefit of Greater Public Interest in the Schools; News Notes.

Special to The Courier.

SCOTSDALE, Sept. 12.—The first meeting of the Civic Club for the fall and winter was held last evening and the large study hall at the high school building was nearly filled. It was one of the nicest public meetings ever held in Scottdale. Mrs. Albert L. Keister presided. The Civic Club had asked that any person in Scottdale having a grievance, bring it to the meeting and present it, but the meeting was so interesting that no person raised a complaint. A reception was given for Mr. and Mrs. J. Alden Marsh, Professor Marsh will be superintendent of the public schools here during the coming winter. The reception committee was made up of Miss Edna Krouse, Mrs. James Campbell, Mrs. O. L. Hess and Prof. and Mrs. J. Alden Marsh.

Reports of the various committees were given and the membership committee reported 199 members. Mrs. W. H. Clugerman reported \$61 in the treasury. Mrs. C. Lee Mollinger, chairman of the recreation committee, reported that they had \$102.60 in the treasury of their committee, and that \$99 had been spent for books in Loucks Park.

Miss Margaret Kitzman rendered several violin solos and was accompanied by Miss Kathleen Atwood. Mrs. Charles Elery of Greensburg, who was the art teacher here in the schools, stated that her one great desire had been to have pictures in the school. The club decided to place six pictures, at a cost of \$75, in the hall. Only three pictures have been in the hall, and three were placed by the Saturday Afternoon Club.

Prof. J. Alden Marsh read greetings from Dr. O. L. Hess, James H. Campbell, Robert Skemp and Rev. W. H. Miller. Prof. Marsh spoke on the value of a parents' and teachers' association. Mrs. Keister appointed the following educational committees to confer and, if possible, to organize an association of this kind: School Board, James R. Campbell, Dr. O. L. Hess; teachers, Mr. Alexander, Misses Addie Handie, Florence Muir, Louise Kerr and Jesse Dinker. Civic Club, Mrs. James R. Campbell, Mrs. J. H. Smith, Mrs. P. O. Keister, Miss Edna Krouse, Mrs. J. E. Kitchener, Mrs. P. H. Weddell, Mrs. W. H. Clugerman, Mrs. Arthur Loucks, Mrs. Walter P. Stauffer, Mrs. E. L. Storer, Mrs. F. L. Brown and Miss Margaret Wiley.

The hall was beautifully decorated in ferns, goldenrod and asters. Refreshments were served by the educational committee. The next meeting will be held the second Monday in October.

## COMING TO FUNERAL.

A telegram was received by J. R. Byrne from Edward Byrne who is on the border stating that he would arrive in Pittsburg some time on Wednesday night, and no arrangements will be made for his mother's funeral until word is received from Edward at some point near home. Mrs. Byrne died at her own home on Sunday night.

## OFFICERS ELECTED.

Following the meeting of the senior classes of the Sunday school of the United Brethren Church Sunday morning the following officers were elected for the coming year: Superintendent, W. P. Storer; assistant superintendent, O. S. Lova; secretary, Morris Kaufman; treasurer, Russell Graft; librarian, Earl Durell; executive committee, W. H. Shauer, D. L. Sherrick and Miss Ella Klox. On Wednesday evening a meeting will be held to approve the appointment of these officers.

## PORTER-SNARE.

Miss Mary Grayce Porter, daughter of Mr. and Mrs. H. C. Porter, and Harry Vernon Snare of Akron, Ohio, were married Saturday afternoon at 2:30 o'clock by Rev. S. C. Wagonman, pastor of the Reformed Church at the Porter country home near Scottdale. Misses Blanche Jewell and Katherine Painter were bridesmaids, and Miss Irene Porter was maid of honor. The wedding march was played by Miss La Verne Keister, and the bride wore a beautiful gown of white pussy willow tulle and Georgette crepe, and carried pink roses. The color scheme being pink and white. After tea ceremony about one hundred guests sat down to an elegant wedding dinner.

## WHAT NERVOUS PEOPLE NEED

Wonderfully Speedy New Found Relief for Tired, Worn Out, Shattered, Unstrung Nervous Systems.

It is simply marvelous, the speedy relief that a single Margo Tablet will give any man or woman whose nerves are upset, unstrung or dulled, tired and ambitionless. Every tablet seems to go straight to the nerve cells, overcoming in just a few moments fatigue, despondency, "jumps," "didgets," nervous indigestion and all those other symptoms of run-down nerve force that are so surely the forerunners of nervous prostration and general nervous breakdown.

Margo vitalizes your tired, over-worked nerves into powers of steel, charging them with powers of tremendous endurance and reserve energy, and does it without a single dangerous drug. Margo is a scientific combination of six of the most powerful and effective, yet absolutely harmless, nerve stimulants known to chemistry and a month's systematic use should completely transform the worst nervous wreck into a strong, healthy, vigorous man or woman.

Margo really does more good in the average case of "nerves" than a month's vacation because it not only "rests" the nerves but puts new snap and "ginger" and courage into your entire body.

Margo must accomplish these things or its cost is nothing. Laughrey Drug Co. and other leading druggists in Connelville sell it with this absolute guarantee, positively agreeing to refund the price paid to any patron who fails to derive great benefit from 60 days' faithful use.—Adv.

# WHY MACK LIKES COLLEGE PLAYERS

Athletics' Leader Says That Real Talent Is Not Found in Minors.

## TOO MANY OLD TIMERS THERE

Former Big Leaguers Fill Banks of Smaller Circuits: Pilot of Philadelphia Americans Says He Is Disappointed Over Showing of Team.

"I must admit that I am greatly disappointed," said Connie Mack, manager of the Athletics, when asked how he was progressing with his building up process. "I thought last spring that I would have a pretty fair ball team by this time, but I counted by checking before they were hit. The numerous college men who reported to me in June fell down hard. They were not in good physical condition, and they had been so busy with examinations that they hadn't played for several weeks. I had received such glowing accounts of the college of these young men on the ball field that naturally I expected excellent results. But I was really shocked when I saw how poorly they performed. Lawry, the University of Maine player, didn't have much of a chance to show anything because he sprained his ankle soon after reporting. He may turn out well as soon as he is in proper shape.

"Why did I go after college players? Because the best players in the minor leagues today are those who have been dropped out of the major leagues. It is hard to find young players of natural skill who can be developed into stars. I know what I am talking about. That is why you have not as much chance to pick up a first class colt in college as in the bushes.

"Why have we lost so many games this year? Because we have been playing against several teams in the American league each of which still has a chance to win the pennant. When the season opened I told a reporter that my team would finish last, but that the other seven teams were evenly matched. Seems to me I had the right dope.

"As part owner of the Athletics I have everything I own tied up in this ball club," said Connie, "and I am perfectly satisfied with conditions. So are seven other American league club owners, and they have confidence in my ability to construct another ball club.

"I believe I know the baseball business, and I am striking my reputation on my ability to come back, and I am coming back with a greater team than I ever had before. By next year I expect to have a club that will be a big factor in the pennant race, and within two years I expect to have a pennant winning combination.

"I have never built up teams, as other managers do, by recruiting almost exclusively from the minor leagues, and therefore I care nothing about the changes made by the critics. I have been managing baseball clubs for twenty years and have tried out every method. I managed in minor leagues and learned my lesson there.

"That was where I learned that minor league players, after they had been sent up to the majors, had to be started all over again. The big leagues use a different style. I have therefore made up my mind to build from the ground up, and that is why I have had so many raw recruits this year. They look very unpropitious at first sight, but from them I will build a club that will play my kind of baseball and will not have to alter the style of my players.

"It was three years before Collins, Baker, Barry, Strunk and Meltons of my old team found their stride. This new bunch should come along faster, because they are getting more opportunities to play in regular games. When I built my old team I foolishly tried to stay in the pennant race. I soon found that I could get nowhere until I cleaned house and developed the players without regard to the race. I am doing that now with my new men."

## SHUNNED LAW FOR BASEBALL.

Dick Rudolph of Braves Says Pastime Attracted Him.

Dick Rudolph, three times, would now be Richard Rudolph, Esq., attorney-at-law, if his father had had his way. Rudolph, who is twenty-seven years old, was born in New York city, and from his infancy his father, a linotype founder on one of the New York papers, proposed to make a lawyer of him. He sent Dick to Fordham college, but, as Dick says, "I won so many ball games that I didn't have time to study with the law."

He spent a year in college and then accepted an offer to travel for Toronto. The Leafs sold him to the Giants in 1911, but he was turned back to Toronto and stuck there until sold to the Braves in 1913.

## Foht Modest Leader.

Len Foht, manager of the Cleveland Indians, is not kicking on the breaks of the game that have shoved his team out of the lead. He is not the kicking kind. But Cleveland newspapers are making a list of accidents that have happened to his players and other things that have kept them out of the game.

Cleveland is baseball mad, and the Forest City fans are going to be a great deal madder unless things change soon.

## Crawford Invents New Sliding Pad.

Sam Crawford, during his enforced layoff, has not been idle. He has put in his time working on a new form of sliding pad which is sold by those who have seen it to be a great improvement. The only drawback to its general use is that it costs about three times as much as the ordinary pad. It will not be carried in stock by sporting goods houses, but will be furnished on order, from makers.

# SMITH SECOND MATTY IS MCGRAW'S BELIEF

Manager McGraw of the Giants thinks he has a second "Matty" in George Smith, the Columbia pitcher. Here is what McGraw says:

"Those of you who remember Matty of fifteen years ago undoubtedly will be impressed at the striking resemblance of Smith and the great pitcher. Then a youngster, tall, slowy, strong and carrying no superfluous weight, Matty was burning up the league with a fast ball and a drop curve. His poise was as much an asset as his ability to throw the ball past the batters.

"The oftener I look at Smith the greater trouble I have in convincing myself it is not Matty of 1902. Built along similar lines and resembling Matty greatly in features, Smith to me is the Matty of this generation. His position on the mound, his delivery and his cool aloofness also remind me much of Matty.

"Added to this, Smith delivers a fast ball with the free and easy motion of Matty, and he has a drop that I am convinced can be made the equal of the famous Matty fadeaway. Never before have I seen a young pitcher in whom I have so much confidence as I have in Smith. He has every natural advantage and is certain enough about himself to make a great pitcher.

"Smith has one delivery that Matty never was able to master, and that is a slow ball."

## SPEAKER GREATEST PLAYER.

So Says Manager Foht in Talking About His Star.

Manager Foht says that Tris Speaker is the greatest player the game ever produced, bar none. "Cobb is a wonder, but Speaker outclasses him. The latter may not outbat or steal more

Photo by American Press Association.

lines than Cobb, but he wins more games than the Detroit star," continued Foht. "Speaker hits when a hit is needed, and he is there when it comes to base running.

"Speaker has served at least twenty-five or more games this season for the Indians by remarkable catches. There never was a man who played the outfield like this fellow," concluded the Cleveland leader.

## NEW GOLF CLUB COURSES.

Links in All Parts of Country Making Going More Difficult.

A majority of the golf clubs that keep pace with the times are having their courses made more difficult. In this line of work Willis Park, the well known links architect who came to this country a few months ago, is kept busy, one week finishing him in the west, another in the south and another somewhere in New England.

Park recently completed nine holes for the Meadow Brook club at Grosse Pointe, near Detroit. The fairways for these holes will be seeded down this fall, so as to have them ready for play in the spring. At that time Park will resume his labors on the other nine holes, as the club plans eventually to have an elaborate eighteen-hole circuit.

## NORMAN TABER HAS RETIRED.

Holder of World's Mile Record Denies He Will Ever Run Again.

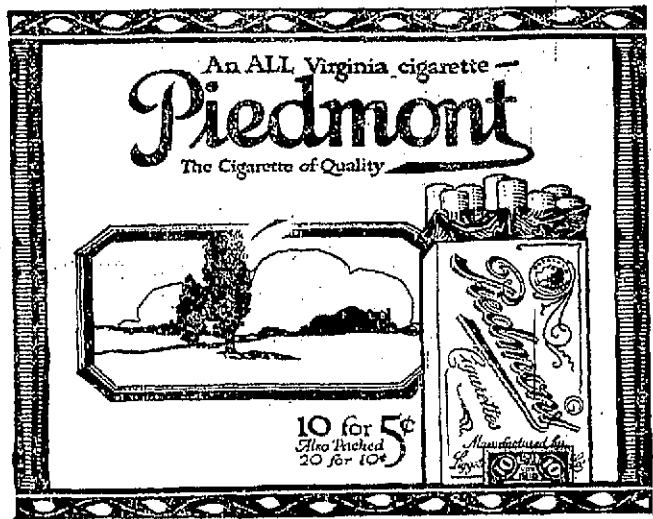

Norman Taber, the holder of the world's record for the mile run, denies emphatically that he has any intention of resuming track work for the purpose of trying for the quarter or half mile record.

On his return from Oxford university over a year ago Taber entered a building house in Providence, R. I., and to all intents and purposes he has laid aside the spiked shoes forever.

## McGraw Says His Outfield Best.

Manager McGraw of the New York Giants says he has the best outfield in the big leagues in Burns, Kluft and Robertson. McGraw says his men are the fastest men in the big set, all hard hitters and every one of them a fighter with a fine arm.

They cover a vast amount of ground. They covered all there was from New York to St. Louis and back again.

## NO MORE PLAYING LEADER

All Big League Pilots Are Ben Managers Now.

When Charley Herzog laid down the reins and ceased to guide the destinies of the Cincinnati Reds the last of the playing managers passed from the big leagues. It would seem that their day is done. Few indeed are the men who can bear the double burden of guiding a team and playing every day as well. And so it has come to pass that bench managers have the call and doubtless will continue to hold favor. The time

BILL CARRIGAN OF BOSTON.

was, however, when playing managers were held in high esteem for economical reasons. The director from the bench was released and the guiding power vested in a player.

Chicago, Evans and Bresnahan were playing managers at Chicago, Herzog at Cincinnati, Doolin at Philadelphia, Fred Clarke at Pittsburgh and Joe M. Birmingham at Cleveland. Now, however, the feeling is reversed. Robinson, Stallings, Merna, Tinker, Callahan, McGraw, Egan and Mathewson all direct their campaigns from the bench. Tinker, Egan and Matty might under stress of circumstances break into harness, but it is not probable that they will do so.

## The Lone Star Ranger

A Romance of the Border

"RIDERS OF THE PURPLE SAGE," ETC.

"Dagobert is dead, Duane! shot to pieces," replied MacNelly, solemnly. "What a fight he made! He killed two

of my men, wounded others. God! he was a fighter. He stood up three guns before we downed him."

"Who—got away?"

"Fletcher, the man with the horses. We downed all the others. Duane, the job's done—it's done! Why, man, you're—"

"What of—of—her?"

"Miss Longstreth has been almost constantly at your bedside. She helped the doctor. She watched your wounds. And, Duane, the other night, when you sank low—so low—I think it was her spirit that held yours back. Oh, she's a wonderful girl. Duane, she never gave up, never lost her nerve for a moment. Well, we're going to take you home, and she'll go with us. Colonel Longstreth left for Louisiana right after the fight. I advised it. There was great excitement. It was best for him to leave."

"Have I—chance—to recover?"

"Chance? Why man," exclaimed the captain, "you'll get well! You'll pick a slight of hand all your life. But you can stand that. Duane, the whole Southwest knows your story. You need never again be ashamed of the name Buck Duane. The brand out here has been washed out. Texas believes you've been a secret ranger all the time. You're a hero. And now think of her, your mother, of this noble girl—of your future."

"The rangers took Duane home to Weston."

A railroad had been built since Duane had gone into exile. Weston had grown. A noisy crowd surrounded the station, but it still as Duane was carried from the train.

A son of fancy pressed close. Some were faces he remembered—schoolmates, friends, old neighbors. There was an upturning of many hands. Duane was being welcomed home to the town from which he had fled. A gladness within him broke. This welcome hurt him somehow, quickened him; and through his cold being, his weary mind, passed a change. His sight dimmed.

Then there was a white house, his old home. How strange, yet how real! His heart beat fast. Had so many, many years passed? Unfamiliar yet strange it was, and all seemed magnified.

They carried him in, these ranger comrades, and laid him down, and lifted his head upon pillows. The house was still, though full of people. Duane's gaze sought the open door. Some one entered—a tall girl in white, with dark wet eyes and a light upon her face. She was leading an old lady, gray-haired, mother-faced, slender and sad. (His mother!) She was feeble, but she walked erect. She was pale, shaking, yet maintained her dignity.

Then someone in white uttered a low cry and knelt by Duane's bed. His mother hung wide her arms with a strange gesture.

"My man! This man's not brought back my boy. This man's the father! Where is my son? My son—oh, my son!"

When Duane grew stronger it was a pleasure to be in the west which—

and listen to his talk. The old man was broken now. He told many interesting things about people Duane had known—people who had grown up and matured, failed, succeeded, gone away, and died. But it was hard to keep Uncle Jim off the subject of guns, outlaws, fights. He could not seem to divine how mention of those things hurt Duane. Uncle Jim was childish now, and he had a great pride in his nephew. He wanted to hear of all of Duane's exile. And if there was one thing more than another that pleased him it was to talk about the bullets which Duane carried in his body.

"Five bullets, ain't it?" he asked, for the third time. "Five in that last scrap? By gum! And you had six before?"

"Yes, uncle," replied Duane. "Five and six. That makes eleven. By gum! A man's a man, to carry all that lead. But, Buck, you would carry more. There's that nice old nurse, right here in Weston. She's got a ton of bullets in him. Duane's

## The Rapport-Featherman Co., Connellsville's Most Dependable Furniture Store

seem to bind them none. And there's soon—able to go out. Then that—

"No, no!" she said with emotion. "Some drunken cowboy, some fool with a gun, will hunt me out in every town, wherever I go. He went on miserably. 'Buck Duane! To kill Buck Duane!'"

"Fletcher! Don't speak so. Listen. You remember that day in Val Verde, when I came to you—pleaded with you not to meet Peggah? Oh, that was a terrible hour for me. But it showed me the truth. I saw the struggle between your passion to kill and your love for me. I could have saved you then had I known what I know now. Now I understand that—that thing which hounds you. But you'll never have to kill another man, thank God!"

Like a drowning man he would have grasped at straws, but he could not voice his passionate query.

She put tender arms round his neck. "Because you'll have me with you always," she replied. "Because always I shall be between you and that—that terrible thing."

It seemed with the spoken thought absolute assurance of her power came to her. Duane realized instantly that he was in the arms of a stronger woman than she who had pleaded with him that fatal day.

"Yes!—we'll be married and leave Texas," she said, softly, with the red blood rising rich and dark in her cheeks.

"Ray!"

"Yes we will, though you're lagging in asking me, sir."

"But dear—suppose," he replied, hesitantly, "suppose there might be—children—a boy. A boy with his father's blood?"

"I pray God there will be. I do not fear what you fear. But even so, he'll be half my blood."

Duane felt the storm rise and break in him. And his terror was that of

joy quelling fear. The shining glory of love in this woman's eyes made him weak as a child. How could she love him—how could she so bravely face a future with him? Yet she held him in her arms, twining her hands round his neck, and pressing close to him. Her faith and love and beauty—these she meant to throw between him and all that terrible past. They were her power, and she meant to use them all. He dared not think of accepting her sacrifice.

"But Ray—you dear, noble girl—I'm poor. I have nothing. And I'm a cripple."

"Oh, you'll be well some day," she replied. "And listen. I have money. My mother left me well off. All she had was her father's—do you understand? We'll take Uncle Jim and your mother. We'll go to Louisiana—to my old home. It's far from here. There's a plantation to work. There are horses and cattle—a great cypress forest to cut. Oh, you'll have much to do. You'll forget there. You'll learn to love my home. It's a beautiful old place. There are groves where the gray moss hangs all day and the night lilies star all night."

"My darling!" cried Duane, brokenly. "No, no, no!"

Yet he knew in his heart that he was yielding to her, that he could not resist her a moment longer. What was this madness of love?

"Oh, I know. Come—come—come!" Her eyes were closing, heavy-lidded and she lifted sweet, tremulous, waiting lips.

With bursting heart Duane bent to them. Then he held her, close pressed to him, with his arms he looked out over the line of low hills in the west, down where the sun was setting gold and red, down over the Nevada and the wild breaks of the Rio Grande which he was never to see again.

It was in this solemn and exalted moment that Duane accepted her sacrifice and faced new life, trusting this brave and tender woman to be stronger than the dark and fateful passion that had shadowed his past.

It would come back—that wind of flame, that madness to forget, that driving, relentless instinct for blood. It would come back with those pale drifting, haunting faces and the accusing fading eyes. But all his life, always between them and him, tendering them powerless, would be the faith and love and beauty of this noble woman.

CONTEMPORARY POINTS ON OPPORTUNITIES THAT ARE OFFERED AT DANCING TEACHERS' CONVENTION.

"There is a dancing teachers' convention on up at the Marlborough. It ought to make a good josh story."

And so it ought. There is probably nothing funnier than teaching dancing unless it be the domestic troubles of a decent family. They are both essentially josh stories. Heaven knows there is enough sombre stuff in the puppers nowadays, without missing a chance to do something funny on a convention of people who teach dancing in their home towns. It makes one laugh just to think of it.

When the next convention comes to town, don't fail to drop in to see it in the first place, when you go up to the headquarters you will see an aggregation of men and women who are rather more neatly dressed than the average New Yorker. That in itself is comical. Then they will proceed to discuss what they have found to be the prevailing fashion in dancing in their respective fields, and will suggest reforms and "improvements." By this time you will have to step outside for a few minutes, you will be laughing so hard—

HAPPINESS IS EVER ELUSIVE

And Never Can Be Found Where One Seeks Only to "Have a Good Time."

Many young people think of little except how they can have a good time. If there is work to do it is only something in their way, to be got rid of as soon as possible, no matter how. They think they can live as a butterfly does when in its glory and sip honey every hour from everything they see.

To find something entertaining, to be amused, is all that they think of. This is very natural, and it is well that they can look on the bright side of life. But they should know also that life is not all a play spell.

There are duties to be performed, and real happiness comes only after work well done. Happiness is not found when sought as the chief thing in life. Entertainments cease to interest. The brilliant companion does not please always unless there are sterling qualities of character back of the brilliancy. Work is the blessing of mankind. Play is relished more after work is done.

There ought to be some earnest purpose, some worthy aim in the heart of everyone. Live not for the present moment. Live to be and do. There are consequences to all our acts. Folly sows brings a bitter harvest which no one can escape running. There are innocent joys to which all especially the young are entitled. But it should be learned that living to some worthy purpose brings the truest enjoyment.—Milwaukee Journal.

She Did and He Did.

Mrs. Tim Bolder was energetically bending the carpet when her neighbor called. "Why, don't you ask your husband to bend it?" asked the visitor.

"I did," replied Mrs. Bolder sagely, "and he did."—Optimist.

Something Big.

"If I keep on," the poet quoted "if I burn midnight oil and dig, and never, never yield to death I may in time write something big."

"I don't," he went on, "care a fig about the long and tedious way. I may in time write something big. A crack for twenty dollars, say."

Caught Again.

## PERSONALS

J. N. Colbert has returned to his  
home in East Liberty after an extend-  
ed visit with relatives in Illinois.

Annabelle Madden, small daughter  
of Mr. and Mrs. Frank Madden, who is  
at a Pittsburgh hospital, is getting  
along very nicely and is expected  
home soon.

Anna Lewis and Paul Collins were  
Connellsville motorists Monday eve-  
ning.

Cards have been received from Mr.  
Kelly of West Newton and M. E.  
Strawn of Dawson, who compose an  
automobile party on a hunting expedi-  
tion in Vermont.

## SMITHFIELD.

SMITHFIELD, Sept. 12.—Carman,  
the eighteen months old son of Mr.  
and Mrs. Roy David, died at the home  
of his parents on Water street Satur-  
day from spinal meningitis. Inter-  
ment in Baptist cemetery Monday.

H. J. Rankin and wife visited their  
daughter, Mrs. Charles Hale at Cross  
Mill Sunday.

Mrs. Hannah Abraham, her mother  
and other relatives were summoned to  
the bedside of Mrs. Samuel Town-  
send, who it was thought was dying  
at her home in Nicholson township  
Saturday evening from blood poison-  
ing, as a result of a slight scratch  
in one of her feet. Later advice from  
the physician is that her condition is  
improved, and if no complications set  
in she will recover.

G. A. Feather was a business visit-  
or at Uniontown Monday.

Mr. and Mrs. Charles Miller visited  
relatives in Greene county Sunday.

here Sunday attending the funeral of  
his cousin, L. J. Stewart.

J. R. Dunham and wife of Fair-  
mont, W. Va., attended the funeral of  
L. J. Stewart Sunday.

About the meanest piece of thievery  
perpetrated in this community,  
was that of the theft of little Billie  
Brooks' bicycle, which some mean  
thief stole one night last week from  
in front of G. W. Campbell's yard,  
on Liberty street. Mr. Campbell has  
offered a reward for its recovery.

T. R. Lynch and wife and three  
children, Jesse, Helen and Cecil, of  
Fairbanks, H. O'Neil and wife of  
Smithfield, motored to Springhill  
township and called on friends and  
relatives Sunday. When they were  
ready to return, Mr. Lynch discover-  
ed that the universal joint on his  
automobile was broken. He had to  
abandon the car and the party al-  
tered by train, leaving the car at  
William Grunton's where a mechanic  
from the Keystone Garage, Union-  
town, went later and brought it in.

## MEYERSDALE.

## SIGNAL FITTER NOT SORRY NOW IT COSTS MORE

Does Not Regret His Eating  
Is More Expensive Due  
to Tanlac.

It is upon unqualified, detailed en-  
dorsements like the following that  
the monster demand for Tanlac, the  
Master Medicine, has been built up.  
This concluding Tanlac story was  
told by C. J. Swires, of 1819 Eighth  
Ave., Altoona, a signal fitter.

"I have been a great sufferer from  
catarrh in an advanced stage," Mr.  
Swires began. "I have used every-  
thing I ever heard of, I believe," he  
continued, "but nothing I used helped  
me one particle. There were mucous  
discharges from my nose that affected  
my throat, violent coughing, offensive  
breath, impaired appetite, dizzy spells  
and, altogether, I was in a nervous,  
run-down condition, and contracted  
colds."

I heard of the wonderful work of  
this new medicine Tanlac and I im-  
mediately got me some of the medi-  
cine. I am certainly glad that I pur-  
chased of the medicine and began taking  
it when I did, as it has done me a  
world of good. I have taken two bot-  
tles of Tanlac and am now on my  
third. This statement of mine is  
therefore not hasty, but is based on  
ample proof. All the symptoms from  
which I have suffered have disap-  
peared and I believe Tanlac has cured  
me. I am, however, going to keep on  
taking the medicine as I believe I will  
get better than I ever was in my  
life."

Tanlac is now sold in Conneltsville  
exclusively by Conneltsville Drug  
Company where the premier prepa-  
ration can be had.

Tanlac can also be secured in Dun-  
bar at D. C. Eason's Drug Store.—Adv.

## FLORO TOO LATE

Van Meter's Star Pitcher Makes  
Strikeout Record But Game Is Lost.

The Van Meter Red Sox suffered  
their first defeat of the season Satur-  
day, when the West Newton boys  
scored a 6-1 win over them. Sokel be-  
gan the twirling for the Sox and was  
touched up for 6 runs in the first in-  
ning. After that he settled down and  
blanked the West Newton bunch for  
five innings. In the sixth he was re-  
lieved by Floro, who did not allow a  
man to reach first in the three in-  
nings which he pitched, striking out  
every man who faced him.

The West Newton representatives  
played steadily, with Verhagen pitch-  
ing a nice game. Van Meter's seven  
hits were kept well scattered. The  
score by innings:

Van Meter.....1 0 2 0 0 0 0 0  
West Newton.....6 0 0 0 0 0 0 0  
Pitchers—Van Meter, Sokel and  
Floro; West Newton, Verhagen and  
Nall.

## DUNBAR.

Connellsville friends yesterday.

Miss Anna Parr was visiting in  
Lantown Monday.

Mr. and Mrs. John Bryson and  
daughter spent Sunday with the for-  
mer's father, William B. Bryson, who  
is on the sick list.

Miss Margaret Doonan visited in  
Connellsville yesterday.

Mr. and Mrs. Ralph Miller returned  
from Republic where they have spent  
the summer with friends and rela-  
tives.

Postmaster R. J. McGee left Tues-  
day for Harrisburg, where he will at-  
tend the session of the Pennsylvania  
State Postmasters' Association, which  
opens there today.

The funeral of Mrs. James Ainsley  
of the Furnace was largely attended  
by sorrowing friends and relatives of  
the deceased.

Miss Lena Hatter accepted a posi-  
tion with Central Supply store as  
stenographer and bookkeeper. The  
vacancy being caused by the resigna-  
tion of Miss Anna Connell, who will  
attend college the coming term.

ing a few days here visiting relatives  
and friends.

Thursday will be pay day here on  
the Pittsburgh & Lake Erie railroad.

Mrs. William Ramsey and Mrs. J. C.  
Durbin of Dawson were shopping and  
calling on Conneltsville friends Mon-  
day morning.

Richard Sidow is having his house  
at Liberty Crossing made more beau-  
tiful and comfortable by having a col-  
onial porch built, which will be com-  
pleted in a few days.

John Strickler of Franklin township  
was a business caller here yesterday  
afternoon.

A. D. Blair of Dawson, was a busi-  
ness caller here Monday.

Lake Coal Shipments Increasing.

Less coal is coming to Lake Erie  
loading docks and shippers are find-  
ing it difficult to obtain vessels that  
will take coal on their up-bound trips.  
In August 322,136 tons of hard coal  
and 2,421,941 tons of soft coal were  
carried through the canals at Saint  
Joe, Mar.

Diamond Tipple Burned.

The river and rail tipple of the  
Diamond Coal Company on the Monon-  
gahela river near Monongahela was  
destroyed Friday by fire believed to  
have been of incendiary origin, re-  
sulting in a loss of \$25,000 to \$30,000.

SOISSON THEATRE

"THE MAN FROM NOWHERE"—A  
five reel Red Feather feature with  
King Baggot will be shown at the  
Soisson Theatre today. It is an in-  
teresting story of a brother's return  
from the west to find his sister led  
away by a foreigner. He tracks  
them to the city and saves at the  
man. He is arrested but receives his  
reward with true love. Dan Russell  
is featured in the two reel L-KO com-  
edy "The Right Car But the Wrong  
Berth." Dan Russell railroaded from  
shop to stentory. The draw-bridge  
draws and Dan ascends like a Fourth  
of July balloon. All from entering a  
ladies' berth by mistake, and he was  
trying to escape from the lady's hus-  
band, too. "Song of the Woods" is a  
Big U woodland drama. "Animated  
Weekly No. 35" contains many inter-  
esting scenes as "100 Mile Speed  
Wins," "Building Collapses," "Kills  
Two." Tomorrow, the Bluebird fea-  
ture, "Little Eve Edgerton" with Elia  
Hall and Herbert Rawlinson in the  
leading roles.

"THE CLOWN"—A five part Para-  
mount production, starring Victor  
Moore, ably supported by Florence  
Dagmar and Thomas Neighan, and  
"Gloria's Romance," with Billie Burke  
in the leading role, are today's attrac-  
tions. In "The Clown," Mr. Moore's  
acting is splendid. The scenes in the  
circus are delightfully realistic, and  
there are many touches of genuine  
pathos. Tomorrow Mae Marsh will  
be seen in "The Marriage of Molly O,"  
a Triangle feature in five acts.  
The story is one of Irish life and is  
finely acted. Miss Marsh plays  
throughout the entire picture with a  
keen appreciation of the character,  
and Robert Harron makes a capital  
young Irishman. The picture is well  
photographed and the fantastic scenes  
which depict the visit of the fairies  
to the little cottage are decidedly re-  
alistic. An old Irishman makes a  
verbal will on his deathbed, giving  
his cow to Molly-O and the pig to  
his dear wife impersonated by Kate  
Bruce. Thursday's attraction will be  
"The Strength of Donald McKenzie,"  
with William Russell in the leading  
role. Friday Anne Pennington will  
make her screen debut in "Susie  
Snowflake," "Susie Snowflake" is a  
charming picture. The story has a  
touch of stage life, and it is just a  
touch enough to display the art of  
Susie as a dancer. Other members  
of the cast are William Courtleigh  
and Leo Delaney.

OHIOPELLE

OHIOPELLE, Sept. 12.—Baltimore &  
Ohio Agent George Heisberger,  
started yesterday on his vacation. He  
will visit in St. Louis and Louisville,  
Ky., and then return home to visit  
in other sections.

Charles Robinson left yesterday for  
Ursina after several days' visit here.  
Rev. Porter returned from his pas-  
toral charge at Harrisville.

Joseph Orndorff of Indian Creek  
has moved his household goods here  
and will reside in the Irish property.  
Misses Anna and Bertha Harbaugh  
of Victoria, were shopping and call-  
ing on friends here yesterday.

Thomas Sprunt was in town yester-  
day on business.

Spring chickens are being shipped  
from here to the fair at Dawson.

## RAILWAY EXPORTS INCREASED LARGELY

Equipment and Supplies to the Value  
of \$75,000,000 to Abroad During  
the Last Fiscal Year.

Railway materials and equipment  
valued at \$75,000,000 were exported  
from the United States in the last fi-  
scal year, according to figures com-  
piled by the Bureau of Foreign and  
Domestic Commerce, Department of Com-  
merce. The exports of this class have  
more than doubled since 1911.

Until very recently Canada and  
Cuba have been the foremost foreign  
markets for our freight cars. China,  
Australia, Japan, Brazil, Argentina  
and Cuba the leading markets for our  
steel rails. At present we are send-  
ing unusual quantities of freight cars  
and other supplies to Russia, chiefly  
via the Pacific frontier, and important  
consignments are going also to France  
and Spain, as well as to our estab-  
lished markets in Cuba, Canada and  
Central America.

In the month of June the total ex-  
ports of freight cars reached \$1,613,000  
in value, of which \$1,086,900 worth  
went to Russia.

Steel rails to the value of \$1,730,000  
were sold abroad during the month,  
the exports to France alone amounting  
to \$1,388,000. Of the \$12,000,000 worth  
of steam locomotives sold abroad  
\$2,720,000 worth went to Spain.

The values of railway material ex-  
ported during the fiscal year ended  
June 30, 1916, as compared with the  
fiscal year 1915, are shown in the fol-  
lowing table:

	1915.	1916.
Freight cars	\$26,656,000	\$11,178,000
Rolling stock	17,087,000	10,250,000
Locomotives	12,666,000	3,602,000
Electric	455,000	137,000
Engines	7,274,000	2,377,000

## Wright-Metzler Co.

Will Mary Have Enough Dresses? How  
Many Blouses Will Tommy Need?  
What Sort of a Suit Should He Have?

—These are only a few of the many perplexing questions that confront the busy mother as school time approaches. The beginning of school used to be quite as much of a terror to mothers as it is to the children themselves. But the new way—the efficient way—is to bring them to this store and fit them out complete, at a much less expense, and without the annoyance of Summer sewing days.

## LITTLE GIRL DRESSES

Sizes 2 to 6 Years

—Barred, striped, and plain Gingham, Galateas, Lin-  
enes, and Percales. Large and small checks and  
plaids in a host of appropriate colors such as pink,  
blue, etc., etc. Mighty neat, serviceable little affairs,  
and prices only 59c to \$1.25.

Sizes 6 to 14 Years

—Practically the same materials as mentioned above,  
but styled to meet the requirements of slightly older  
girls. For instance, there are high waisted models,  
Russian Blouse and Belted effects, and Stripes with  
dainty smocked trimming. A very pretty lot, indeed,  
to be priced only 79c to \$3.50.

## While They Last

60 Girls' School Dresses, 75c Values 59c

—Only 60, all told, so they can't last very long. If you don't secure several of these you'll surely envy your neighbor who did. Good quality Gingham and Percales in stripes, checks, plaids and plain colors of pink and blue. All sizes 6 to 14 years. Let us repeat the little price—75c values, 59c.

## Boys' and Girls' Sturdy School Hose

NONE BETTER AT THE PRICE

—Boys' and Girls' fine, medium, and heavy ribbed  
Hose, in all sizes, 5½ to 9½. Black. Price 15c pair.

—Boys' medium and heavy ribbed Hose—some with  
double linen knees, heels and toes. Black. All sizes,  
6 to 11. Price 25c pair.

—Misses' fine ribbed Black Cotton Hose, all sizes,  
5½ to 10. Price 25c pair.

—Misses' fine ribbed Mercerized Hose in black, pink,  
white and blue. All sizes, 5½ to 9½. Price 25c pair.

Finer grades in black and white, only 35c pair.

## Other Items too Numerous to be Discussed Separately

—A complete showing of Boys' Shirts  
and Waists.

—Boys' Serviceable and Comfortable  
School Shoes.

—Growing Girls' Shoes in all sizes and  
widths.

—Boys' Collars, Ties, Hats and Caps.

—Underwear in various grades, priced  
accordingly.

—Sweaters in all sizes and weights.

—Hairbow Ribbons moderately priced.

—A beautiful showing of Girls' Hats.

—Warm, serviceable Coats for the School  
Girl.

## ONE THING CERTAIN ABOUT A BOY'S SCHOOL SUIT

—It can't be much of a success, unless  
it is stoutly made, and will wear, wear,  
WEAR.

—But it's just this extraordinary wear in a  
Wright-Metzler Boy's Suit that is its  
chief recommendation.

at \$3.50 to \$12

—We are showing fine models for Fall and Winter in  
Nortfolk or plain styles, some with the "Pinch Backs"  
boys like so well.

—Very neat, very attractive patterns and colors.  
One pair of pants—or two—just as you wish.

—While there are good values at every price from  
\$3.50 to \$12, we invite particular attention to our  
Special Suit at \$5.
